Re: Handicapped sign along curb

Grace Baptist Church, 600 S. Edmunds St., Mitchell, has the main entrance door actually facing W. Douglas Ave. between Sanborn Blvd. and S. Edmunds St. There is a small parking lot on the east side of the building with space to park approximately seven vehicles. All others vehicles must park on the street during our services and activities.

We would like to designate the first parking spot west of the sidewalk leading up to our building as handicapped parking. We could furnish and erect the sign ourselves according to whatever rules apply. I have enclosed a map which indicates where we would like the sign. There is also a picture of our church building facing Douglas. The sign would be just to the right of the sidewalk in this picture.

West Douglas is a relatively low traffic area with virtually no vehicles parked here other than during our services.

We have noted several churches in the community have designated curb-side handicapped parking spaces.

I understand that the Traffic Commission's next meeting is August 15. I will be out of town that week but can be contacted that day or before for any questions @ 933-0219.

Thank you for your consideration of this matter.

Sincerely,

Carroll Torberson
